

# The Healthiest Cart Sanitizing Solution for Both YOUR Shopper AND YOUR Bottom Line.

## THE DILEMMA

- Even before Covid-19, carts were determined to harbor harmful viruses and bacteria. You can regain shopper confidence by delivering a safer, healthier, sanitized environment.
- Supermarkets spend far too much on labor & materials for a cart cleansing regimen which is ineffective and hurts your bottom line.

## THE SOLUTION

The Peggs Company has partnered exclusively with the trusted authority in sanitizing and disinfecting – *Enviren Worldwide*, to offer a sure way to encourage customers and their families come into the store while eliminating those non-productive “cleansing” labor costs.

### Fast & Easy To Use

*A single employee pushes a line of nested carts through the entryway.*

*The internal motion detector instantly triggers the automated misting system.*

*The EPA-approved, biodegradable misting spray sanitizes the entire cart.*

*Within seconds, the carts emerge completely sanitized with a non-toxic formula safe for children, adults and the environment.*

Shopper concerns:	More likely to use a food retailer if:
70% Getting ill	78% Sanitization (general, carts, checkout)
57% Items out-of-stock	38% Minimize/limit number of shoppers
38% Prices rising	33% Special hours

The advantages of the Peggs Enviren Sanitizing System include:
